

Description

Spotted Gum is a tough timber which has been weathered by harsh conditions. This weathering produces spotted gum's unique characteristics: gum veins and a wavy grain which results in a 'fiddleback' effect. Architects and Specifiers favour Spotted Gum for its individuality and stunning colour palette which ranges from light browns to dark reds. It is also known as Lemon Scented Gum.

Botanical Name

Corymbia maculata

Origin of Timber

NSW, VIC, QLD, Oceania

BAL

Bushfire Attack Level 12.5, 19 & 29

All AS 3959 Required Applications

Suitability

- Boating
- Cabinet Door
- Decking & Cladding
- Flooring & Staircase
- Furniture
- Joinery

Technical Information

Tangential Shrinkage	6.1%
Radial Shrinkage	3-4%
Unit Movement	0.38%
Density per Standard	1100 kg/m ³
Modulus of Rupture	150 MPa
Modulus of Elasticity	23 GPa
Maximum Crushing Strength	75 MPa
Impact	24 joules (J)
Toughness	High – 25Nm and above
Hardness	11 kN
